

# COMPARISON OF TWO TYPES TRAININGS

## YELLOW BELT – „in class“

- Personal meeting - the opportunity to experience everything live
- Simulation - copying real environment of services / manufacturing
- No technical equipment required before the training.
- Real workshops and discussions
- Ability to share know-how within a group during training

## YELLOW BELT - online

- A modern and efficient form of digital collaboration and problem-solving tools
- Anywhere - no need to commute to the training site
- More emphasis on preparation and technical equipment before training
- Work in virtual teams, using digital platforms
- No travel costs

## Common elements

- Possibility of individual online consultations after the training
- Certificate of attendance
- Training material (we also send materials before the training in printout if required)
- Satisfaction garrantied – we will return 25% of the fee back in case of subject dissatisfaction
